

NALI KUSUMA

Professional summary

Bachelor of technology (B.Tech) in computer science and engineering graduate with a solid foundation in computer science principles and practical programming skills. Possesses a keen interest in leveraging technology to solve complex problems and drive innovation.

Demonstrated ability to adapt quickly to new technologies and environments, with a strong commitment to continuous learning and professional development. Adapt at collaborating with cross-functional teams to deliver high-quality solutions that meet client needs and exceed expectations. Seeking opportunities to apply academic knowledge and hands-on experience to contribute effectively to a dynamic organisation in the field of software development or information technology.

Experience

- Demonstrated expertise in core principles of computer network and software engineering.
- Proficient in using various coding languages and web development tools.
- Additionally, I have hands-on experience with problem solving OOPs, and data handling using MYSQL, mongo.
- Engaged in hands-on work with various projects to develop strong understanding of both front-end and backend-technologies.
- Collaborated with team members in projects to achieve target results.

Smart Bridge (Remote Internship)

Frontend Developer Intern | June 2025 - August 2025

- Built responsive front-end components using ReactJS for institutional web platforms.
- Integrated RESTful APIs with Node.js and MongoDB backend.

Personal Details

Name : Nali Kusuma

Father name : Nali Narayana

Date of birth : 14-12-2004

Gender : Female

Nationality : Indian

Languages known : Telugu, English

Education

2026

Bachelor of technology (B. Tech)
Computer Science and engineering -CSE
Jawaharlal Nehru Techonological university
Anantapur, AP

Currently persuing technological graduation in such a embedded university with a CGPA of 8.6 and I have gained a great experience, being member of student club union and become managed in all divisions of activities.

2023

Diploma in computer engineering
Sri Venkateshwara government polytechnic,
Tirupati, AP

As a diploma student obtained 93% of my academic and diploma has been a foundational to gain engineering concepts and involved in some hands-on projects

2020

SSC-10th
Narayana English medium School
Gudur, AP

- CGPA of 9.8

Technical Skills

Languages	C, java, python, SQL, Javascript.
Frameworks	React, express, node
Databases	Mysql, mongodb, oracle
Tools	Visual studio code, Xampp
Technologies	Data structures, OOPs, Restful API
Others	Github actions,

Projects

Title: Resolve Now

Duration: 2 Months (May 2025 -Jul 2025)

Description: Resolve now is a online platform for registering, tracking and managing complaints. It ensures quick resolution through categorized handling, real-time updates and transparent communication between users and authorities.

Project link  :

<https://github.com/nali-kusuma2004/resolvenow-platform-for-online-complaints/project>

Roles and responsibilities:

- Developed user and admin modules for complaint registration, tracking and resolution.
- Integrated real-time status updates, secure data handling.
- Designed a user friendly interface and ensure smooth navigation.
- Performed testing, debugging, and documentation for complete system.

Title: Sample Try-out

Duration: 5 Months

Description: Sample try-out is a APECET mock test website that is an online platform designed to help students prepare for APECET by providing a simulated test environment.

Project link  :

https://nali-kusuma2004.github.io/sample_try_out/index.html

Roles and responsibilities:

- Define project goals, allocating tasks, and ensuring timely completion.
- Design the backend system and develop an optimized backend logic using efficient coding practices.
- Design, implement and manage databases for seamless data handling.
- Guide team members in resolving technical challenges.

- Conduct testing, debug errors, and technical challenges.

Strengths

- Excellent at analyzing and solving complex problems with efficient code solutions.
- Skilled in frontend technologies: HTML, CSS, JavaScript, and ReactJS.
- Quick learner, adaptive to new tech stacks and frameworks.
- Flexibility to adapt new challenges and opportunities.
- Calm under pressure.
- Leadership and self motivation.
- Adaptability to achieve the targeted goals.

Achievements

- Completed 2-month internship at Smart Bridge working on MERN stack.
- Completed a certification in emerging technologies like javascript from scaler .
- Earned NCC 'B' Certificate showcasing leadership and discipline.

Declaration

I here by declare that the above furnished information is true to the best of my knowledge and I will be held responsible of any deviation from them at a later stage.
